

Priority One Is Fighting Rising Operational Costs ...

Here's how you can save up to \$4,000 per fleet vehicle every year with a GPS vehicle tracking system that can pay for itself within six months...

"We are so excited about the **VeriVision** solution. Each month, we've reduced our gas tank refills by over 20 trips and also reduced our fuel costs by \$1,500 -- a fantastic and important savings for our organization. We save month after month...thank you **VeriVision!**" **Timothy S. Barden, President Tebarco Door**

"We have effectively reduced our overtime by 12–15 hours per week, saving over \$1,500 per month and \$18,000 per year." **Steve Moon, President Moon Services**

How many thousands of dollars per year could you save if you put a stop to just one of these activities...

- Excessive idling? (over \$3,000/truck/year on average)
- "Paid time" spent on 45-minute coffee breaks, 2½ hour lunches and stops at the grocery store or the bar?
- Speeding? (20% fuel savings from slowing from 65 mph to 55 mph)
- Moonlighting using your fleet vehicle?
- Taking the "scenic route" to the job site?

Monitoring and eliminating just one of these activities with our GPS vehicle tracking system will pay for the system in savings alone. Discover how VeriVision can help you...

- Reduce fuel costs
- Reduce vehicle maintenance costs by 38% to 80%!
- Reduce accidents and make your drivers safer
- Lower your insurance rates by 5% to 30%
- Track and recover stolen vehicles and stop cargo theft
- Spot time-sheet fraud and reduce payroll expenses
- Increase billable hours per vehicle per year
- Cut overtime expenses
- Put an end to moonlighting and unauthorized use
- Eliminate time spent planning and mapping routes
- Reduce driver paperwork and fuel tax reporting
